Services To Support Your Research

Office for Research & Discovery, Research Development Services (RDS)
Ann McGuigan, Director RDS & Kim Patten, Associate

ResDev@email.arizona.edu
The Office for Research & Discovery
Helping you at every stage along the way

Looking for funding? ... if only money really did grow on trees

want another set of eyes? we promise we won’t read over your shoulder

Don’t forget to Log out close out your award

CELEBRATE!! & then it’s time to manage

Training we won’t make you sweat
ORD Services

- Sponsored Projects Services
- Contract & Research Support Program
- Human Subjects Protection Program
- HIPAA Privacy Program
- Institutional Animal Care and Use Committee
- Responsible Conduct of Research Program
- Conflict of Interest Program
- Research Laboratory & Safety Services
- Research Integrity Program
- Export Control Program

Details are available on the ORD Card and at RGW.Arizona.edu
What Is Research Development?

Supports faculty in securing research funding by

- Nurturing partnerships and collaborations
- Providing training & best practices for attracting funding
- Supporting large/complex research proposals
- Assisting to navigate funding agencies
What Does RDS Do?

We work as part of the UA’s suite of research services in the Office for Research & Discovery, with you, and your department’s administration.

RDS Mission: Assist Researchers and Scholars

- Identify Funding Opportunities
- Form Effective Teams
- Craft Winning Proposals
- Turn great ideas into competitive proposals
Connecting Researchers To Opportunities

Weekly Email Funding Opportunities Announcements

- Arts & Humanities
- Biomedical & Health Sciences
- Education & Outreach
- Life Sciences
- Physical Sciences & Engineering
- Social & Behavioral Sciences and Law
- Limited Solicitations Calendar
Connecting Researchers To Opportunities

Federal and Foundation Funding Opportunities

Sign up at the Research Gateway
Form Research Teams

Navigate Research Resources

Foster the Science of Team Science

- Serve as resource for UA researchers seeking team science collaboration / funding
  - Bring together faculty for grant collaboration opportunities within UA
  - Identify inter- and cross-disciplinary funding opportunities
Limited Solicitation Calendar & Review

Calendar

Limited Solicitations Calendar

Some external funding programs limit the number of applications the University of Arizona may submit. These “limited solicitations” are coordinated by the Office for Research & Discovery (ORD) through an Institutional Review Process. If you would like to be considered for a limited solicitation opportunity, please submit a pre-proposal to your college at least one month prior to the internal deadlines listed below. Please review eligibility requirements carefully, if you identify a program that you have not listed that limits solicitations, or if you have questions about any of the limited solicitations listed below, please contact Research Development Services (DDS) or (520) 621-3512.

While ORD attempts to notify researchers and colleges about upcoming limited solicitations through its newsletter, “Internal Newsletter Announcement,” due to the large number of limited solicitations posted by funding organizations on a regular basis, it is not always possible to remain current with upcoming deadlines. To visit this page and review the weekly Funding Opportunity Announcement.

All ORU designations are in the home column unless the internal deadline has passed without any applications submitted for review. Once a program is designated as ORU, the first application received by ORU from a college will be accepted at the institutional submission. If the sponsor allows more than one application, applicants will be required for ORU programs in the order in which ORU receives them. For additional questions regarding the Institutional Review Process, click here.

Please note that proposals to private foundations may require submission and coordination through the University of Arizona Foundation.

Search Tip: The table below defaults to the internal submission deadline but can be searched by “Program Title,” “Sponsor,” or “internal” searches. Simply click on the title in the program heater.

Limited Solicitations Calendar was last updated on July 14, 2015.

Announcements

Research Info

The W.M. Keck Foundation (WKF) offers research grants to support pioneering projects in two program areas: 1. Science and Engineering and 2. Medical Research. The WKF funds projects that are distinctive and novel in their approach. Projects that are high-risk with the potential for a significant and transformative impact are ideal. This Keck program provides up to $1M in project funding typically over three years, which must be matched 1:1. Please note that the WKF does not support drug delivery, therapeutics or clinical research or projects that are disease specific.

The Keck process involves an Initial Pre-application Counseling process that requires submission of Concept Papers prior to Phase I applications. The UA may submit up to four Concept Papers in both program areas. This UA Limited Solicitation Notice is a request for Concept Paper proposals that will be reviewed at UA, and selected for the Pre-application Counseling process with Keck. UA Office for Research & Discovery (ORD) staff will provide strategic and editorial assistance to finalize the Concept Papers that are submitted to Keck. Feedback on Concept Papers will be provided by WKF representative at a specified date (during the Pre-application Counseling Period). Upon completion of the Pre-application Counseling process, ORD and the UA Foundation will finalize the selection of one Concept Paper per program area to be prepared and submitted to the WKF as a Phase I Application.

Link to your ORCID
DISTINGUISH YOURSELF IN THREE EASY STEPS

ORCID provides a persistent digital identifier that distinguishes you from every other researcher and, through integration in key research workflows such as manuscript and grant submission, supports automated linkages between you and your professional activities ensuring that your work is recognized. Find out more.

1. REGISTER  Get your unique ORCID identifier Register now! Registration takes 30 seconds.

2. ADD YOUR INFO  Enhance your ORCID record with your professional information and link to your other identifiers (such as Scopus or ResearcherID or LinkedIn).

3. USE YOUR ORCID ID  Include your ORCID identifier on your Webpage, when you submit publications, apply for grants, and in any research workflow to ensure you get credit for your work.
Funding Insights

China and Europe Strengthen Research Ties

A joint initiative launched June 29 at the EU-China Summit in Brussels aims to encourage talented, young Chinese researchers to join teams in Europe.

Signed between the National Natural Science Foundation of China (NSFC) and European Research Council (ERC), the initiative allows NSFC grantees to collaborate with ERC grant holders through single, long-term or multiple, short-term visits to Europe while continuing to receive NSFC funding.
